Associations and interest groupings — Entities composed of members may participate as 'sole beneficiaries' or 'beneficiaries without legal personality'⁸. ⚠️ Please note that if the action will be implemented by the members, they should also participate (either as beneficiaries or as recipients of financial support to third parties, otherwise their costs cannot be covered by the action).

EU restrictive measures — Special rules apply for certain entities (*e.g. entities subject to [EU restrictive measures](#) under Article 29 of the Treaty on the European Union (TEU) and Article 215 of the Treaty on the Functioning of the EU (TFEU)*⁹ and entities covered by Commission Guidelines No [2013/C 205/05](#)¹⁰). Such entities are not eligible to participate in any capacity, including as beneficiaries, associated partners, third parties giving in-kind contributions, subcontractors or recipients of financial support to third parties (if any).

 For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

The EU trade or inter-trade organisations that are representative at EU level for the product or sector promoted (point (b) of Article 7(1) of Regulation (EU) No 1144/2014) are excluded from this call.

Activities should be complementary to and should not overlap with activities financed through the Common Agricultural Policy and/or through the funds or instruments of the different Member States supporting at the national level the promotion of agricultural products. Projects must be designed to complement other private or public activities implemented by the proposing organisation(s) in the targeted markets; synergies with such activities must be ensured.

Projects should take into account the results of previous co-financed campaigns clearly describing their impact and reasons for resubmission.

The complementarities must be described in the project proposal (Part B of the Application Form).

Projects must comply with EU policy interests and priorities (*such as environment, climate, social, development and trade policy, etc*).

Proposals must:

- a) ensure that the measures are implemented through implementing bodies as referred to in Article 13 of Regulation (EU) No 1144/2014. Proposing organisations must select bodies responsible for implementing programmes ensuring best value for money and absence of conflict of interest (see Article 2 of Delegated Regulation (EU) 2015/1829). The proposing organisation must undertake that the body responsible for the implementation of the programme

will be selected at the latest before the signature of the grant agreement (see Article 10 of Commission Implementing Regulation (EU) 2015/1831)

- b) ensure that the costs of the measure which it plans to carry out itself is not in excess of the normal market rates, if the proposing organisation proposes to implement certain parts of the proposal itself
- c) comply with EU law governing the products concerned and their marketing and have an EU dimension; comply with all the provisions described under Article 3(1) of Delegated Regulation (EU) 2015/1829
- d) for proposals in the internal market covering one or more schemes as referred to in Article 5(4) of Regulation (EU) No 1144/2014: focus on the(se) scheme(s) in their main EU message. When in this programme, one or several products illustrate(s) the(se) scheme(s), it/they must appear as a secondary message in relation to the main EU message
- e) for messages containing information on the impact on health:
 - in the internal market: comply with the Annex to Regulation (EC) No 1924/2006 of the European Parliament and of the Council¹¹, or be accepted by the national authority responsible for public health in the Member State where the operations are carried out
 - in third countries: be accepted by the national authority responsible for public health in the country where the operations are carried out
- f) for proposals proposing to mention origin or brands: comply with the rules as referred to in Chapter II of Implementing Regulation (EU) 2015/1831.

For the purposes of assessing the eligibility of the activities, the following information must be provided:

- for proposals covering national quality schemes: documentation or a reference to publicly available sources that prove that the quality scheme is officially recognised by the Member State¹²
- for proposals targeting the internal market and relaying a message on proper dietary practices or responsible alcohol consumption: description how the proposed programme and its message(s) are in line with the relevant national rules in the field of public health in the Member State where the programme will be carried out (including references or documentation in support of this claim).

Financial support to third parties is allowed for grants or similar forms of support under the following conditions:

- the financial support is given only to entities that are linked to the beneficiary¹³ and identified already in the project proposal
- the project specifies the maximum amount of financial support for each third party and the criteria and procedures for giving the financial support

¹¹ Regulation (EU) No 1924/2006 of the European Parliament and of the Council of 20 December 2006 on nutrition and health claims made on foods (OJ L 404, 30.12.2006, p.9–25).

¹² Article 16 of the Regulation (EU) No 1305/2013 of the European Parliament and of the Council of 17 December 2013 on support for rural development by the European Agricultural Fund for Rural Development (EAFRD) and repealing Council Regulation (EC) No 1698/2005 (OJ L 347, 20.12.2013, p. 487).

¹³ 'Linked entities' are entities that have a link with the beneficiary, in particular, a legal or capital link, which is neither limited to the action nor established for the sole purpose of its implementation.

- the beneficiaries ensure that the costs charged to the action are limited to the costs actually incurred by those third parties and that the entities comply with the principle of sound financial management and keep records on their costs.

Geographic location (target countries)

Proposals must relate to activities targeting one or several countries covered by the chosen topic of the call.

Proposals targeting the internal market must be implemented:

- in at least two Member States with a coherent share of the allocated budget, in particular taking into account the respective size of the market in each of the Member States concerned

or

- in one Member State, if that Member State is different from the Member State of origin of the proposing organisation(s)

unless they concern EU quality schemes referred to in Article 5(4)(a), (b) or (c) of Regulation (EU) No 1144/2014 or relay a message on proper dietary practices.

Duration

Projects should have a minimum duration of 12 and a maximum duration of 36 months.

Proposals should specify the duration of the action.

7. Financial and operational capacity and exclusion

Financial capacity

Applicants must have **stable and sufficient resources** to successfully implement the projects and contribute their share. Organisations participating in several projects must have sufficient capacity to implement all these projects.

The financial capacity check will be carried out on the basis of the documents you will be requested to upload in the [Participant Register](#) at a later stage of the evaluation (*e.g. profit and loss account and balance sheet, business plan, audit report produced by an approved external auditor, certifying the accounts for the last closed financial year, etc*). The analysis will be based on neutral financial indicators, but will also take into account other aspects, such as dependency on EU funding and deficit and revenue in previous years.

The check will normally be done for all beneficiaries, except:

- public bodies (entities established as public body under national law, including local, regional or national authorities)
- if the individual requested grant amount is not more than EUR 60 000.

Operational capacity

Applicants must have the **know-how, qualifications** and **resources** to successfully implement the projects and contribute their share (including sufficient experience in projects of comparable size and nature).

Applicants must demonstrate that at least one natural person working under employment contract with the applicant (or assigned to the action on basis of an equivalent appointing act, secondment against payment or on the basis of other types of direct contracts, e.g. *covering provision of services*) will be appointed as a project manager. The project manager must have at least three years' experience in project management.

The operational capacity will be assessed together with the 'Quality' award criterion on the basis of the competence and experience of the applicants and their project teams, including operational resources (human, technical and other) or, exceptionally, the measures proposed to obtain it by the time the task implementation starts.

If the evaluation of the award criterion is positive, the applicants are considered to have sufficient operational capacity.

Applicants will have to show their capacity via the following information:

- general profiles (qualifications and experiences) of the staff responsible for managing and implementing the project (*e.g. CV of the project manager, CVs core project team, etc*)
- list of EU-funded projects for the last 3 years (*template available in Part B*)
- applicants' activity reports of the last year
- for cases where proposing organisations propose to implement certain parts of the proposal: a description of the activities which shows that they have at least 3 years' experience in implementing information provision and promotion measures.

Additional supporting documents may be requested, if needed to confirm the operational capacity of any applicant.

Exclusion

Applicants which are subject to an **EU exclusion decision** or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate¹⁴:

- bankruptcy, winding up, affairs administered by the courts, arrangement with creditors, suspended business activities or other similar procedures (including procedures for persons with unlimited liability for the applicant's debts)
- in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant's debts)
- guilty of grave professional misconduct¹⁵ (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- committed fraud, corruption, links to a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)

¹⁴ See Articles 136 and 141 of EU Financial Regulation [2018/1046](#).

¹⁵ Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to influence decision-making processes or obtain confidential information from public authorities to gain advantage.

- shown significant deficiencies in complying with main obligations under an EU procurement contract, grant agreement, prize, expert contract, or similar (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- guilty of irregularities within the meaning of Article 1(2) of Regulation No [2988/95](#) (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant).

Applicants will also be refused if it turns out that¹⁶:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

8. Evaluation and award procedure

The proposals will have to follow the **standard submission and evaluation procedure** (one-stage submission + one-step evaluation).

An **evaluation committee** (assisted by independent outside experts) will assess all applications. Proposals will first be checked for formal requirements (admissibility, and eligibility, see *sections 5 and 6*). Proposals found admissible and eligible will be evaluated (for each topic) against the operational capacity and award criteria (see *sections 7 and 9*) and then ranked according to their scores.

For proposals with the same score (within a same topic) a **priority order** will be determined according to the following approach:

For every group of *ex aequo* proposals, starting with the highest scored group, and continuing in descending order, proposals which allow for diversification in terms of products or targeted markets will be prioritised.

This means that, between *ex aequo* applications within the same topic, priority will be given to applications which are not yet represented in the higher ranked proposals firstly in terms of products, secondly in terms of targeted market.

If these criteria cannot be applied, then projects with highest score for individual award criteria will be selected.

We will first compare projects' scores for the award criterion 'Relevance'. When these scores are equal, priority will be based on the scores for the criterion 'Impact'. When these scores are equal, priority will be based on the scores for the criterion 'Quality'.

¹⁶ See Article 141 EU Financial Regulation [2018/1046](#).

This principle also applies, *mutatis mutandis*, to merged ranked lists constituted following the reallocation of foreseen amounts across the call topics (see point (c) below).

Criteria for reallocation of foreseen amounts

If for a given topic there are not enough proposals on the ranked list to exhaust the whole foreseen amount, the remaining amount may be reallocated to other topics according to the following criteria:

- (a) the total of the remaining foreseen amount for the five topics for the internal market shall be allocated to the projects targeting the internal market with the highest score, irrespective of the topic for which they have applied;
- (b) the same approach shall be taken for the four topics for third countries;
- (c) if the foreseen amount is still not exhausted, the remaining amounts for both internal market and third countries shall be merged and assigned to projects with the highest score, irrespective of the priority and topic for which they have applied. The order of the ranked lists will be strictly followed.

The European Commission will adopt an implementing act determining the proposals selected, any changes to be made to them, and the corresponding budgets (award decision). This decision will list the selected programmes accepted for a financial contribution from the EU under Article 15 of Regulation (EU) No 1144/2014. The decision will be addressed to the competent Member States.

As soon as the Commission adopts this decision, it will forward the copies of the selected proposals to the Member States concerned. Member States will without delay inform the proposing organisations concerned whether or not their applications have been accepted.

9. Award criteria

The **award criteria** for this call are as follows:

- **Relevance** (25 points):
 - Relevance of the proposed action to the general and specific objectives listed in Article 2 of the Regulation (EU) No 1144/2014, to the aims listed in Article 3 of the same Regulation, as well as to priorities, objectives and expected results announced under the relevant thematic priority of the call.
 - Contribution of the proposed information provision and promotion project in respect of the objectives of the climate and environmental ambition of the CAP, the Green Deal and Farm to Fork strategies, in particular concerning sustainability of production and consumption.
 - Quality and relevance of the market analysis.
 - Coherence of the action strategy, specific objectives, target groups and key messages.
 - EU message of the campaign.
- **Quality** (50 points):
 - Suitable choice of activities with respect to objective and action strategy, adequate communication mix, synergy between activities.

- Concise description of activities and deliverables.
- Quality of the proposed evaluation methods and indicators.
- Suitable allocation of budget in relation to objectives and scope of activities.
- Clear description of the estimated costs and accuracy of the budget.
- Consistency between the estimated costs and deliverables.
- Project organisation and management structure.

Award criteria	Minimum pass score	Maximum score
Relevance	15	25
Quality	30	50
Impact	15	25
Overall (pass) scores	60	100

Maximum points: 100 points.

Individual thresholds per criterion: 15/25, 30/50 and 15/25 points.

Overall threshold: 60 points.

Proposals that pass the individual thresholds AND the overall threshold will be considered for funding – within the limits of the available call budget (i.e. up to the budget ceiling). Other proposals will be rejected.

10. Legal and financial set-up of the Grant Agreements

The Member States concerned will be responsible for the proper implementation of the projects selected and for managing the grants.

Member States must conclude Grant Agreements for the implementation of projects with the selected proposing organisations in accordance with the requirements mentioned under Article 10 of Implementing Regulation (EU) 2015/1831.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

The Model Grant Agreement that will be used (and all other relevant templates and guidance documents) can be found on [Portal Reference Documents](#).

Starting date and project duration

The project starting date and duration will be fixed in the Grant Agreement (*Data Sheet, point 1*). Normally the starting date will be after grant signature. It should not be later than 6 months after the date of entry into force of the grant agreement. A retroactive starting date can be granted exceptionally for duly justified reasons — but never earlier than the proposal submission date.

Project duration: see *section 6 above*.

Milestones and deliverables

Milestones are not applicable for AGRIP calls. Screens/sections related to milestones can be left empty.

The deliverables for each project will be managed through the Portal Grant Management System and will be reflected in Annex 1 of the Grant Agreement.

Form of grant, funding rate and maximum grant amount

The grant parameters (*maximum grant amount, funding rate, total eligible costs, etc*) will be fixed in the Grant Agreement (*Data Sheet, point 3 and art 5*).

Project budget: No limit. The grant awarded may be lower than the amount requested.

The grant will be a budget-based mixed actual cost grant (actual costs, with unit cost and flat-rate elements). This means that it will reimburse ONLY certain types of costs (eligible costs) and costs that were *actually* incurred for your project (NOT the *budgeted* costs). For unit costs and flat-rates, you can charge the amounts calculated as explained in the Grant Agreement (*see art 6 and Annex 2 and 2a*).

The costs will be reimbursed at the funding rate fixed in the Grant Agreement:

- for simple programmes in the internal market: 70% (or 75% if a beneficiary is established in a Member State receiving financial assistance)
- for simple programmes in third countries: 80% (or 85% if a beneficiary is established in Member States receiving financial assistance)
- for simple programmes in the event of serious market disturbance, loss of consumer confidence or other specific problems : 85% (or 90% if a beneficiary is established in Member States receiving financial assistance).

Grants may NOT produce a profit (i.e. surplus of revenues + EU grant over costs). For-profit organisations must declare their revenues and, if there is a profit, we will deduct it from the final grant amount (*see art 22.3*).

Moreover, please be aware that the final grant amount may be reduced in case of non-compliance with the Grant Agreement (*e.g. improper implementation, breach of obligations, etc*).

The budget categories and cost eligibility rules are fixed in the Grant Agreement (*Data Sheet, point 3, art 6 and Annex 2*).

- VAT: non-deductible VAT is eligible (but please note that since 2013, VAT paid by beneficiaries that are public bodies acting as public authority is NOT eligible)

- individual financial responsibility — *each beneficiary for their own debts.*

For more information, see [AGA – Annotated Grant Agreement](#).

11. How to submit an application

All proposals must be submitted directly online via the Funding & Tenders Portal Electronic Submission System. Paper applications are NOT accepted.

Submission is a **2-step process**:

a) create a user account and register your organisation

To use the Submission System (the only way to apply), all participants need to [create an EU Login user account](#).

Once you have an EULogin account, you can [register your organisation](#) in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).

b) submit the proposal

Access the Electronic Submission System via the Topic page in the [Search Funding & Tenders](#) section (or, for calls sent by invitation to submit a proposal, through the link provided in the invitation letter).

Submit your proposal in 4 parts, as follows:

- Part A includes administrative information about the applicant organisations (future coordinator, beneficiaries, affiliated entities and associated partners) and the summarised budget for the proposal. Fill it in directly online
- Part B (description of the action) covers the technical content of the proposal. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file
- Part C containing additional project data. To be filled in directly online.
- Annexes (*see section 5*). Upload them as PDF file (single or multiple depending on the slots). Excel upload is sometimes possible, depending on the file type.

The proposal must keep to the **page limits** (*see section 5*); excess pages will be disregarded.

Documents must be uploaded to the **right category** in the Submission System otherwise the proposal might be considered incomplete and thus inadmissible.

The proposal must be submitted **before the call deadline** (*see section 4*). After this deadline, the system is closed and proposals can no longer be submitted.

Once the proposal is submitted, you will receive a **confirmation e-mail** (with date and time of your application). If you do not receive this confirmation e-mail, it means your proposal has NOT been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the [IT Helpdesk webform](#), explaining the circumstances and attaching a copy of the proposal (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the [Online Manual](#). The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

12. Help

As far as possible, ***please try to find the answers you need yourself***, in this and the other documentation (we have limited resources for handling direct enquiries):

- [Online Manual](#)
- FAQs on the Topic page (for call-specific questions)
- [Portal FAQ](#) (for general questions)
- Specific [FAQ on the Promotion policy](#)

Please also consult the Topic page regularly, since we will use it to publish call updates.

Contact

For individual questions on the Portal Submission System, please contact the [IT Helpdesk](#).

Non-IT related questions should be sent to the following email address: REA-AGRI-GRANTS@ec.europa.eu.

Please indicate clearly the reference of the call and topic to which your question relates (*see cover page*).

13. Important

IMPORTANT

- **Don't wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute **technical problems**. Problems due to last minute submissions (*e.g. congestion, etc*) will be entirely at your risk. Call deadlines can NOT be extended.
- **Consult** the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call and topic updates).
- **Funding & Tenders Portal Electronic Exchange System** — By submitting the application, all participants **accept** to use the electronic exchange system in accordance with the [Portal Terms & Conditions](#).
- **Registration** — Before submitting the application, all beneficiaries and associated partners must be registered in the [Participant Register](#). The participant identification code (PIC) (one per participant) is mandatory for the Application Form.
- **Consortium roles** — When setting up your consortium, you should think of organisations that help you reach objectives and solve problems.

The roles should be attributed according to the level of participation in the project. Main participants should participate as **beneficiaries**; other entities can participate as associated partners, subcontractors, third parties giving in-kind contributions. **Associated partners** and third parties giving in-kind contributions should bear their own costs (they will not become formal recipients of EU funding). **Subcontracting** must be performed by third parties (not by one of the beneficiaries).

- **Coordinator** — In multi-beneficiary grants, the beneficiaries participate as consortium (group of beneficiaries). They will have to choose a coordinator, who will take care of the project management and coordination and will represent the consortium towards the granting authority. In mono-beneficiary grants, the single beneficiary will automatically be coordinator.
- **Associated partners** — Applicants may participate with associated partners (i.e. partner organisations which participate in the action but without the right to get grant money). They participate without funding and therefore do not need to be validated.
- **Consortium agreement** — For practical and legal reasons it is recommended to set up internal arrangements that allow you to deal with exceptional or unforeseen circumstances (in all cases, even if not mandatory under the Grant Agreement). The consortium agreement also gives you the possibility to redistribute the grant money according to your own consortium-internal principles and parameters (for instance, one beneficiary can reattribute its grant money to another beneficiary). The consortium agreement thus allows you to customise the EU grant to the needs inside your consortium and can also help to protect you in case of disputes.

- **Balanced project budget** — Grant applications must ensure a balanced project budget and sufficient other resources to implement the project successfully (*e.g. own contributions, income generated by the action, financial contributions from third parties, etc*). You may be requested to lower your estimated costs, if they are ineligible (including excessive).
- **Completed/ongoing projects** — Proposals for projects that have already been completed will be rejected; proposals for projects that have already started will be assessed on a case-by-case basis (in this case, no costs can be reimbursed for activities that took place before the project starting date/proposal submission).
- **No-profit rule** — Grants may NOT give a profit (i.e. surplus of revenues + EU grant over costs). This will be checked by us at the end of the project.
- **No cumulation of funding/no double funding** — It is strictly prohibited to cumulate funding from the EU budget (except under 'EU Synergies actions'). Outside such Synergies actions, any given action may receive only ONE grant from the EU budget and cost items may under NO circumstances be declared under two EU grants. If you would like to nonetheless benefit from different EU funding opportunities, projects must be designed as different actions, clearly delineated and separated for each grant (without overlaps).
- **Combination with EU operating grants** — Combination with EU operating grants is possible, if the project remains outside the operating grant work programme and you make sure that cost items are clearly separated in your accounting and NOT declared twice (see [AGA — Annotated Model Grant Agreement, art 6.2.E](#)).
- **Multiple proposals** — Applicants may submit more than one proposal for *different* projects under the same call (and be awarded a funding for them).

Organisations may participate in several proposals.

BUT: if there are several proposals for *very similar* projects, only one application will be accepted and evaluated; the applicants will be asked to withdraw one of them (or it will be rejected).

- **Resubmission** — Proposals may be changed and re-submitted until the deadline for submission.
- **Rejection** — By submitting the application, all applicants accept the call conditions set out in this Call Document (and the documents it refers to). Proposals that do not comply with all the call conditions will be **rejected**. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn't, they must be replaced or the entire proposal will be rejected.
- **Cancellation** — There may be circumstances which may require the cancellation of the call. In this case, you will be informed via a call or topic update. Please note that cancellations are without entitlement to compensation.
- **Language** — You can submit your proposal in any official EU language. However, for reasons of efficiency, we strongly advise you to use English.

- **Transparency** — In accordance with Article 38 of the [EU Financial Regulation](#), information about EU grants awarded is published each year on the [Europa website](#).

This includes:

- beneficiary names
- beneficiary addresses
- the purpose for which the grant was awarded
- the maximum amount awarded.
